Description I suggest that we add "none" to the Collar Headwork Type vocab. The alternative is to leave it empty for all boreholes that do not have a Collar Headwork. But in the latter case, it is not possible to make a distinction between boreholes with no collar headwork and boreholes with no information. Examples: ocean drilling (hole left open with out completion), many of the geotechnical drillings in the geosurvey databases, ... <pre><skos:Concept rdf:about="https://data.geoscience.earth/ncl/CollarHeadworkType/none"> <skos:inScheme rdf:resource="https://data.geoscience.earth/ncl/CollarHeadworkType"/> <skos:prefLabel xml:lang="en">none</skos:prefLabel> <skos:topConceptOf rdf:resource="https://data.geoscience.earth/ncl/CollarHeadworkType"/> <skos:definition xml:lang="en">Collar headwork is not present.</skos:definition> </skos:Concept></pre>
